TEGAR BIMO PRAKOSO PUTRA NGABEI (BEI)

Information Technology Graduate

West Jakarta, Indonesia | +62 831-1702-5260 | beigardino@gmail.com | **LinkedIn** | **GitHub**

Information Technology graduate from UIN Syarif Hidayatullah Jakarta with a strong technical background in Web Development, Cloud Computing, and Artificial Intelligence. Proficient in designing responsive web applications using Next.js/React.js, managing cloud infrastructures, and delivering effective technical support and system administration. Open to new opportunities, leveraging a proven capacity to learn rapidly, troubleshoot effectively, and excel in collaborative environments.

CORE COMPETENCIES

Web Development	HTML5, CSS3, JavaScript, React.js, Next.js, Data Visualization
IT Support & Networking	System Administration, Hardware/Software Troubleshooting, Computer Networking, Cybersecurity Essentials, Technical Support
Cloud & DevOps	Google Cloud Platform (GCP), AWS, Vercel Deployment, MongoDB Atlas, Git/GitHub
AI & Data Science	Python, Pandas, Scikit-learn, NLP, Support Vector Machine (SVM), Naive Bayes

EDUCATION

Universitas Islam Negeri Syarif Hidayatullah Jakarta — **Graduated: Apr 2026**

Bachelor of Information Technology

PROFESSIONAL EXPERIENCE & BOOTCAMPS

Bangkit Academy (by Google, GoTo, Traveloka) — **Feb 2023 – Jul 2023**

Cloud Computing Cohort Graduate

- Completed an intensive, highly-selective cloud engineering path covering cloud infrastructure architecture, deployment management, and core backend engineering.
- Collaborated in a cross-functional team environment to design, build, and deploy a scalable capstone application architecture onto cloud environments.
- Developed strict proficiency in system reliability, API integrations, and cloud resources optimization.

PROJECTS

Sporton Web Application (KitaKerja.id / Aguna Course)

Web Development Program | Frontend: Next.js & React.js | Backend: Node.js

- Developed a comprehensive, responsive web application utilizing Next.js and React.js for optimal user experience.
- Integrated database operations seamlessly using MongoDB Atlas and managed robust backend functionalities.
- Successfully deployed the frontend application to production via Vercel (sporton-fe-vercel-deploy-

SOOTHEME Application (Bangkit Capstone Project)

Cloud Architecture & Database Management

- Contributed to the development of a stress relief application featuring curated audio experiences.
- Took ownership of cloud storage solutions, environment configuration, and database management using Google Cloud Platform services to ensure high availability.

Esam App - Waste Classification

Deep Learning & Data Management

- Sourced, cleaned, and managed extensive visual image datasets from Kaggle for waste classification.
- Contributed to the deep learning model training process to categorize waste types based on visual inputs.

Undergraduate Research & Sentiment Analysis Thesis

UIN Syarif Hidayatullah Jakarta | Python, Scikit-learn, Sastrawi

- Engineered a comprehensive NLP model: "Analisis Sentimen Pengguna Aplikasi Grab dan Gojek Menggunakan Metode Support Vector Machine (SVM)".
- Developed structured Python scripts to clean unstructured text data, perform Indonesian stemming, and extract numerical feature sets via TF-IDF.
- Evaluated SVM classification accuracy metrics to derive data-driven insights, successfully presenting findings in the Results Seminar on April 8, 2026.

SELECTED CERTIFICATIONS & TRAINING

- English Proficiency - TOEFL Score: 623 (Oct 2026)
- Design a Website Template using HTML5 & CSS3 - Udemy (Mar 2026)
- Futuremakers YEP IT-Web Programming Training Standard Chartered Foundation & Plan International Indonesia (Feb 2026)
- Professional Web Architecture & Programming Fundamentals - RevoU (Dec 2025)
- Menjadi Google Cloud Engineer - Dicoding (May 2023)
- System Administration and IT Infrastructure Services - Coursera (Authorized by Google) (Mar 2023)
- The Bits and Bytes of Computer Networking - Coursera (Authorized by Google) (Mar 2023)
- Memulai Dasar Pemrograman untuk Menjadi Pengembang Software - Dicoding (Feb 2023)
- Cybersecurity Essentials & Introduction to Cybersecurity - Cisco Networking Academy (Oct 2022)
- MTA: Introduction to Programming using Python - Microsoft Certiport (Aug 2021)
